

Ocean Wonders

Discovering God's Undersea World

Ocean Wonders is a magical learning adventure where kids explore the beauty, creativity, and wonder of God's underwater world through stories, activities, and ocean discovery.

Inspired by **Psalm 107:24** — “**They saw the works of the Lord, His wonderful deeds in the deep.**”

Ocean Wonders invites children to dive beneath the waves and discover how amazing God's creation truly is.

Through colorful characters, real ocean science, and faith-based lessons, kids will:

-  Learn about sea creatures and coral reefs
-  Explore God's design in nature
-  Build curiosity and confidence
-  Grow love and respect for our oceans
-  Become young ocean caretakers

Ocean Wonders blends **faith, fun, and hands-on learning** to help children see that every splash, fin, and coral reef tells a story of God's creativity.

Come dive in with us — adventure awaits in the deep! 

For Parents: Why Ocean Wonders?

Ocean Wonders: Discovering God's Undersea World was created to inspire children to explore creation with curiosity, courage, and faith.

In a world full of screens, Ocean Wonders encourages kids to **put on a mask, look closer, and experience God's creation firsthand** — whether in the ocean, a tide pool, aquarium, lake, or even a backyard science activity.

Rooted in **Psalm 107:24** — “**They saw the works of the Lord, His wonderful deeds in the deep.**” this program blends:

-  Real ocean science and marine education
-  Biblical truth and creation-based learning
-  Hands-on exploration and outdoor discovery

 Courage-building adventure experiences

 Stewardship and care for God's creation

Ocean Wonders is designed to help children move beyond passive learning and into **active discovery**. Through stories, activities, and guided exploration, kids learn not only *what* lives in the ocean — but *why it matters* and *Who created it*.

Our heart is to raise a new generation of young explorers who are confident, faith-filled, and excited to protect and celebrate the incredible underwater world God designed.

So grab a mask, take a deep breath, and dive into learning — adventure is waiting beneath the surface.

At Ocean Wonders, this verse is our anchor. It reminds us that the ocean isn't just full of amazing creatures — it is filled with **God's fingerprints**.

Every coral reef, dolphin jump, seashell swirl, and tiny fish tells a story of God's creativity and power. When children explore the underwater world, they aren't just learning science — they are discovering the beauty of God's design.

That's why Ocean Wonders encourages kids to **put on a mask, look closer, and experience creation firsthand** — turning wonder into worship and curiosity into faith-filled learning.

 Dive deeper.

 Discover more.

 See God's wonders in the deep.
